🔧 Recommended Tools for This Course

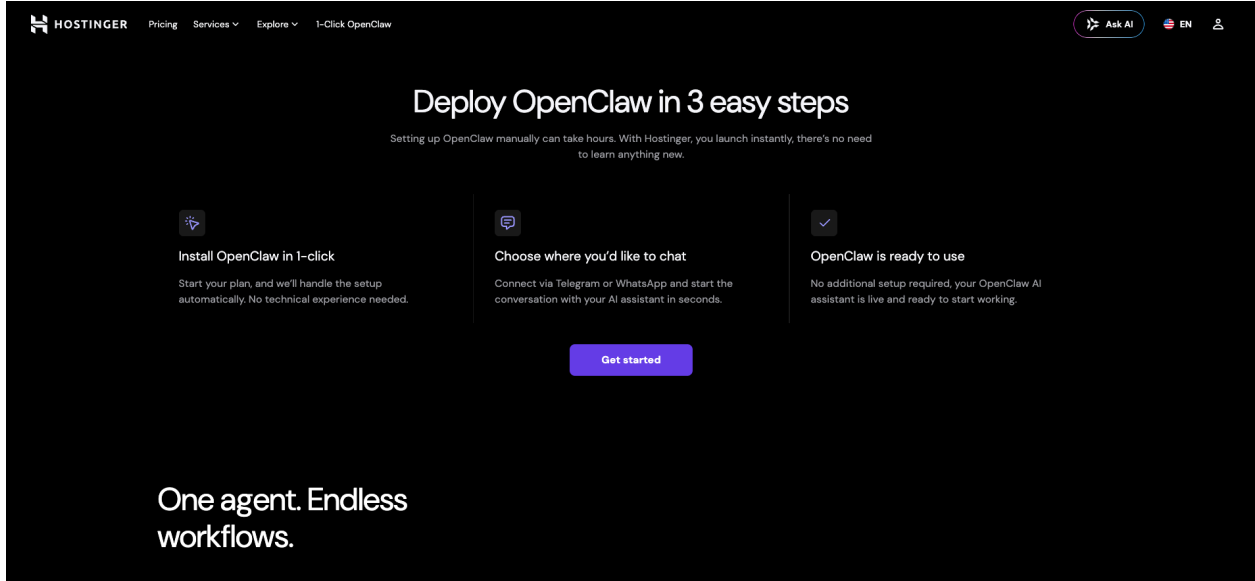

Throughout the course, **we'll use a few different tools alongside OpenClaw**. You might not need all of them - it depends on which projects you choose to follow. The great news? They all come **with free trials or credits**, so you can test everything without any risk!

Quick Note: Some of the links below are affiliate links, which means we may receive a small commission - at no extra cost to you. Thank you for supporting the course! 😊 You may also unlock special offers by joining through these links.

🎁 **Hostinger** - (20% OFF - Normally 10%, **Our Students** Get 20%)

Set up OpenClaw on your own VPS so your AI agent runs 24/7, even when your computer is off.

👉 [CLICK HERE](#) 👉

The screenshot shows the Hostinger website's 'Deploy OpenClaw' page. The header includes the Hostinger logo, navigation links (Pricing, Services, Explore), and a '1-Click OpenClaw' link. A top right bar contains an 'Ask AI' button, a language selector (EN), and a user profile icon. The main heading is 'Deploy OpenClaw in 3 easy steps', followed by a subtext: 'Setting up OpenClaw manually can take hours. With Hostinger, you launch instantly, there's no need to learn anything new.' The three steps are: 1. 'Install OpenClaw in 1-click' (Start your plan, and we'll handle the setup automatically. No technical experience needed.), 2. 'Choose where you'd like to chat' (Connect via Telegram or WhatsApp and start the conversation with your AI assistant in seconds.), and 3. 'OpenClaw is ready to use' (No additional setup required, your OpenClaw AI assistant is live and ready to start working.). A 'Get started' button is centered below the steps. At the bottom, it says 'One agent. Endless workflows.'

🚀 **Apify - (\$5 Free Credits)**

The best web scraping tool to pair with your OpenClaw agent.
