

Before we start connecting AI models in the next few lessons, I wanted to give you this **guide that covers all the model options available for OpenClaw**. It breaks down the different tiers — **free, cheap, and premium** — so you can see what's out there and pick the one that fits your budget. We'll be referencing this guide throughout the course, so it's worth downloading now and keeping it handy. **You'll find the PDF in the resources section below.**
